December 2, 2025

Dear Patient,

It is with mixed emotions that I announce my upcoming retirement scheduled for the end of this calendar year. Having the opportunity to participate in your healthcare has been one of the most rewarding parts of my nearly 40-year career in medicine.

After my retirement, the physicians and midwives of Women's Health of Central Massachusetts would be more than happy to continue providing gynecologic and obstetrical care for my patients. However, if you need to transfer your care elsewhere, your record will be available for transfer at your request.

It has been an extremely rewarding experience for me, as one of the founding members, and my colleagues to build Women's Health of Central Mass to the kind of practice it is today. It is a testament of our excellent team that the practice is consistently recognized as the best OB/GYN practice in Central Massachusetts and one of the best in the state.

If you have any questions or concerns, please do not hesitate to contact the practice at (508) 755-4861. I will still be here and seeing patients until December 31, 2025, and if you have any problems or concerns, I am here for you until then.

I am looking forward to spending more time with family and our new granddaughter and my many hobbies and interests.

I wish you all the best.

Sincerely,

Abraham Fischer, MD
